

Prof. Gyoo-Cheon Kim
Pusan National University,
Republic of Korea

Dr. Gyoocheon Kim is a professor in the school of dentistry at Pusan National University. He met plasma in 2004 while doing a lot of research on oral cancer. Since then, he has developed plasma application technology in a variety of biomedical areas as well as oral cancer. He also works as a committee member of Yangsan City Biomedical Complex that is the President's pledge, and is the director of Plasma Biotechnology Research Center at same university. On the basis of research, he started a venture in December 2014 to produce plasma medical devices. His main interest is to expand the plasma technology applicable to the biomedical field and eventually to commercialize it. At ICPM8, he will introduce a few of plasma products based on his findings.
