

Prof. Nagendra Kumar Kaushik
Kwangwoon University,
Republic of Korea

Prof. Nagendra Kaushik received a Ph.D. degree in Biomedical Science from the University of Delhi, India, in 2010. Nagendra currently working as Professor at the Department of Electrical and Biological Physics at Kwangwoon University, Seoul, Korea.

His research work is primarily focused on plasma medicine, cancer biology, virus biology, immune-modulation, nanobiotechnology, and biomaterials at PBRC/ Department of Electrical and Biological Physics of Kwangwoon University.

He has participated in several research projects funded by the government, university, and industries in the areas of plasma medicine at Kwangwoon University.

He has published more than 105 research articles (total citation: 3100; H-index: 27; i10-index: 46) in indexed journals. He has also participated in several international conferences on plasma medicine as an invited speaker and session chair.

He is serving as the editor of Scientific Report, PloS One, Applied Sciences, International Journal of Molecular Sciences, Oxidative Medicine and Cellular Longevity, IEEE TRPMS; Biomedicine; Applied Nano; Current Pharmaceutical Biotechnology, and working as reviewer/guest editor of more than 50 SCI high impact journals.
